MEASUREMENT CONVERSION

Largest ←————————————————————→ Smallest

× 1000

kilo- ×1000→ metre gram litre ×100→ centi- ×10→ milli-

÷1000← ÷100← ÷10←

÷ 1000
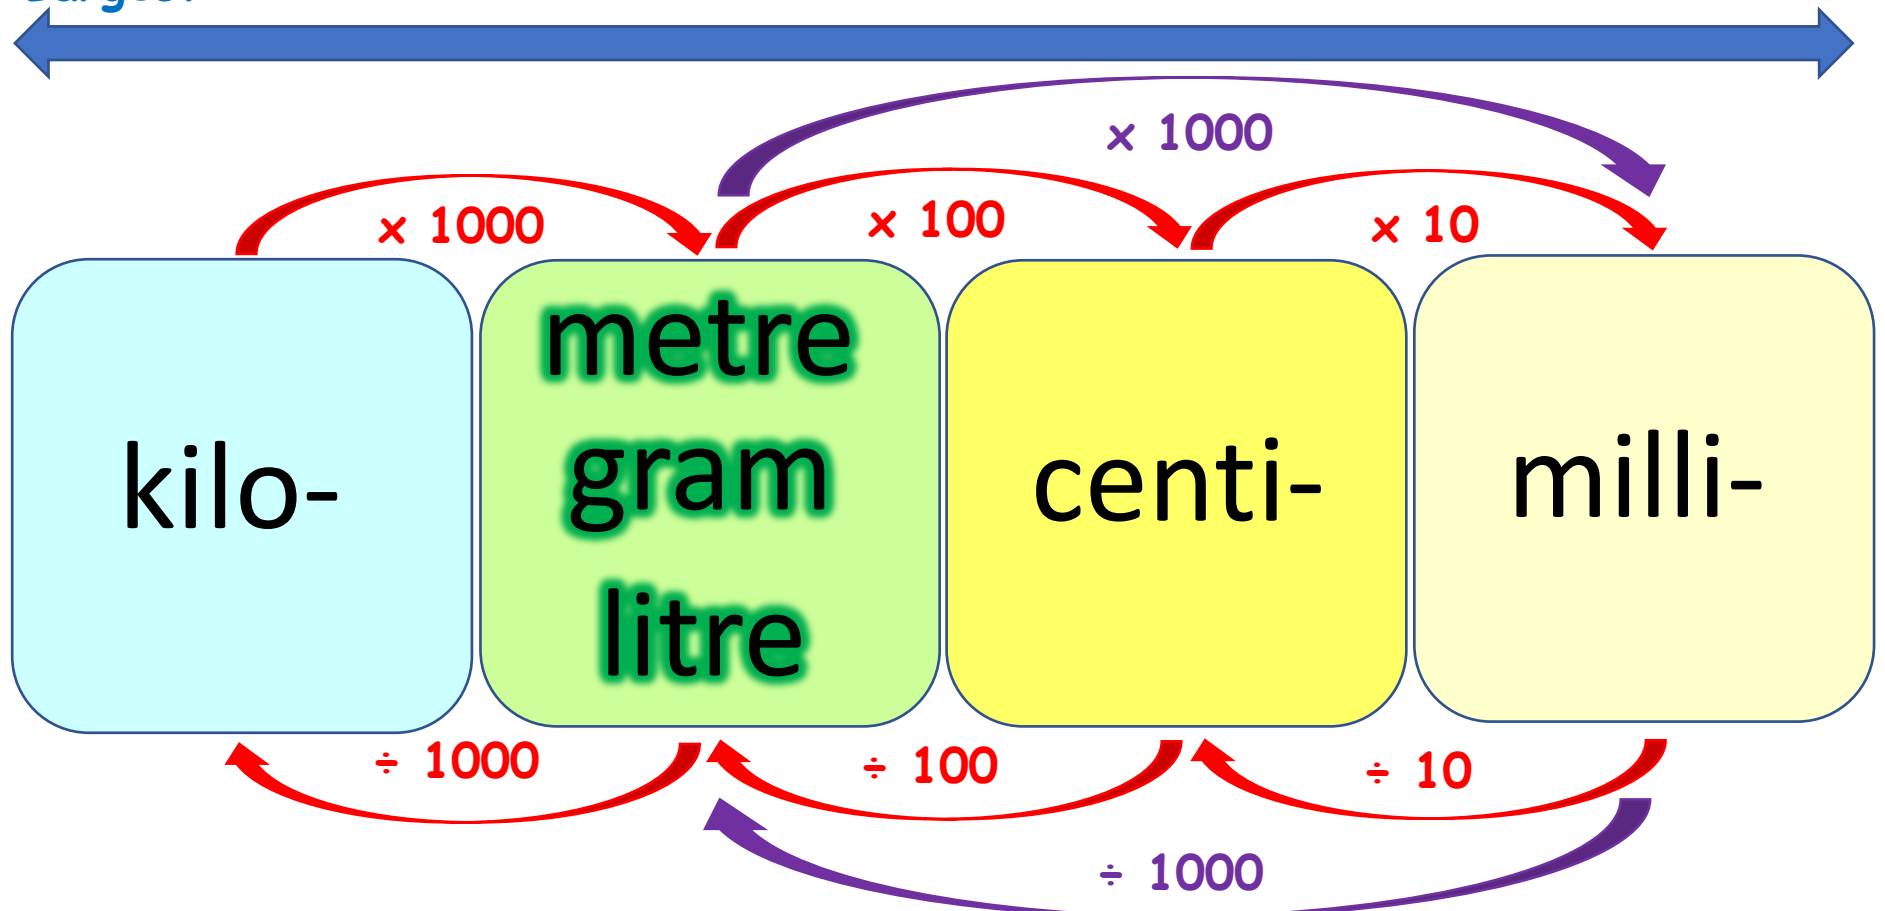

For example: to convert 3 kilometres to metres, multiply the number of kilometres by 1000.
So... 3 kilometres = 3 x 1000 metres = 3000 metres.
